The Paradox of SOA in 2009

- The **S** and **O** in SOA are doing just fine, but...
- The **A** is another story

The Paradox of SOA in 2009

- Services are everywhere
 - As the API interface to on-premise applications
 - Bundled with infrastructure such as databases
 - As the API interface to SaaS, PaaS, IaaS

- But Architecture is in trouble
 - Budgets
 - Recession
 - Past experiences

Today's Agenda

- The 7 Fundamentals of Mission-Critical Service Testing - Robert D. Schneider
- Beginning an SOA Initiative - Ian Robinson
- Project-Oriented SOA - Leo Shuster
- Security for the Services World - Chris Riley
- SOA @ eBay - How is it a Hit? - Sastry Malladi
