

HTML 5 Design and Development Tooling

Christophe Coenraets – <http://coenraets.org> – @ccoenraets

Greg Wilson – <http://gregsramblings.com> - @gregsramblings

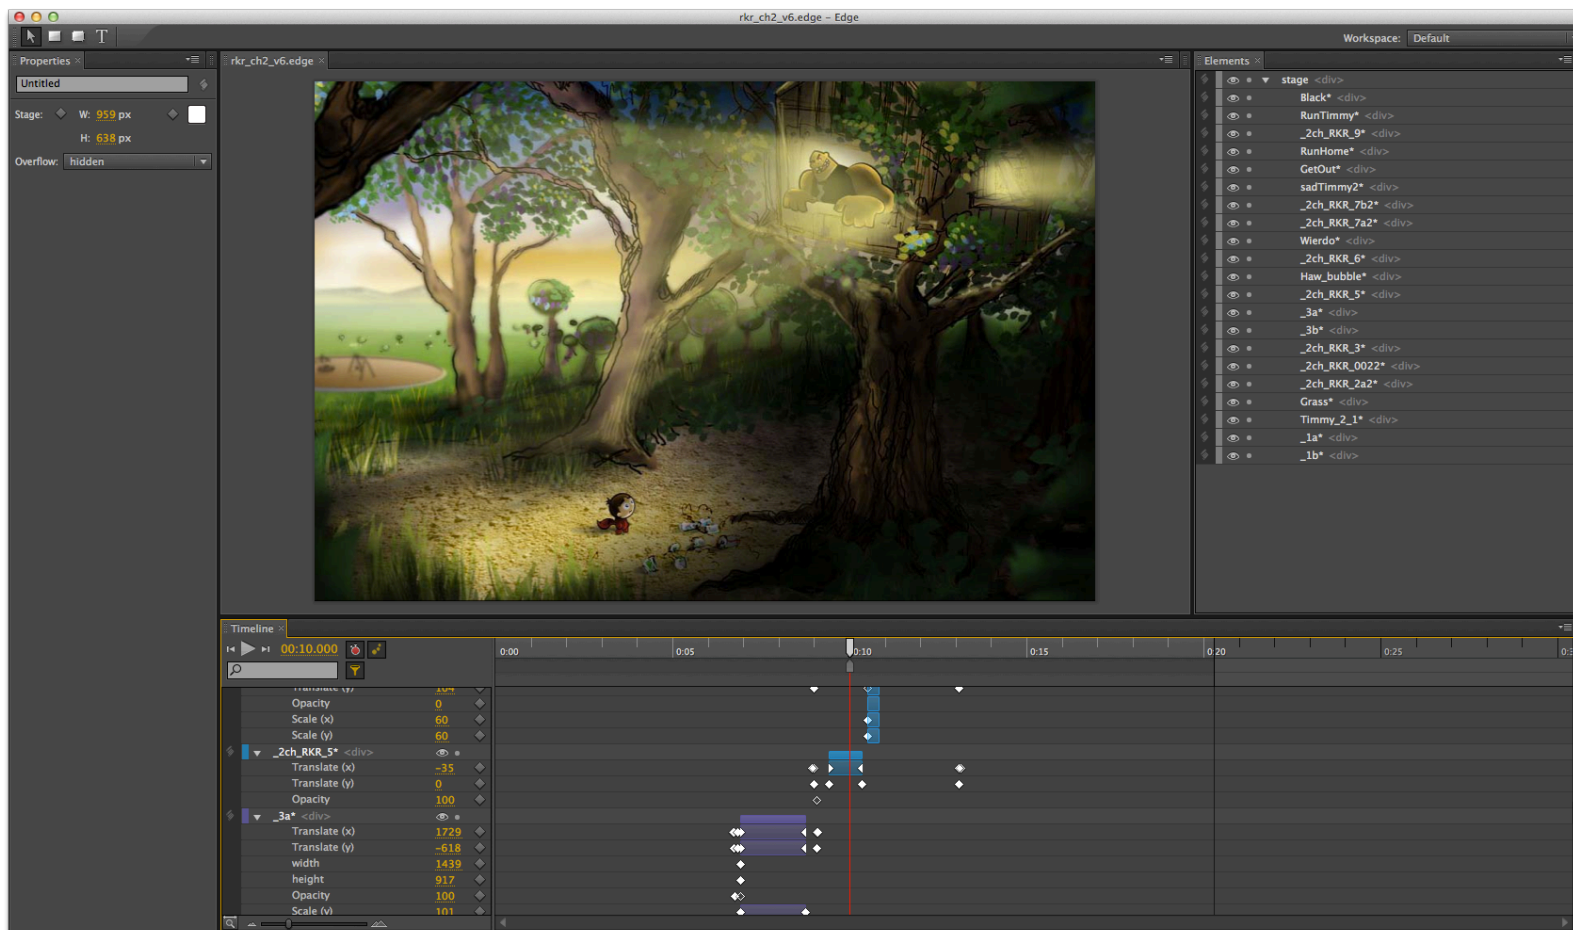

Agenda

- Edge – Motion and Interaction Design Tool
- Webkit contributions – CSS Regions, CSS Shaders
- JQuery Mobile
- PhoneGap
- Flash News

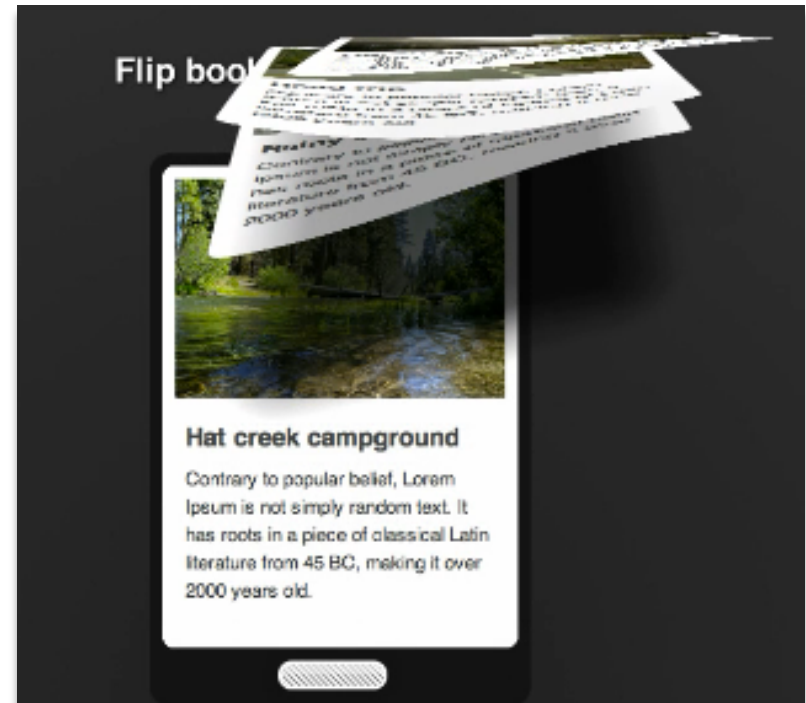

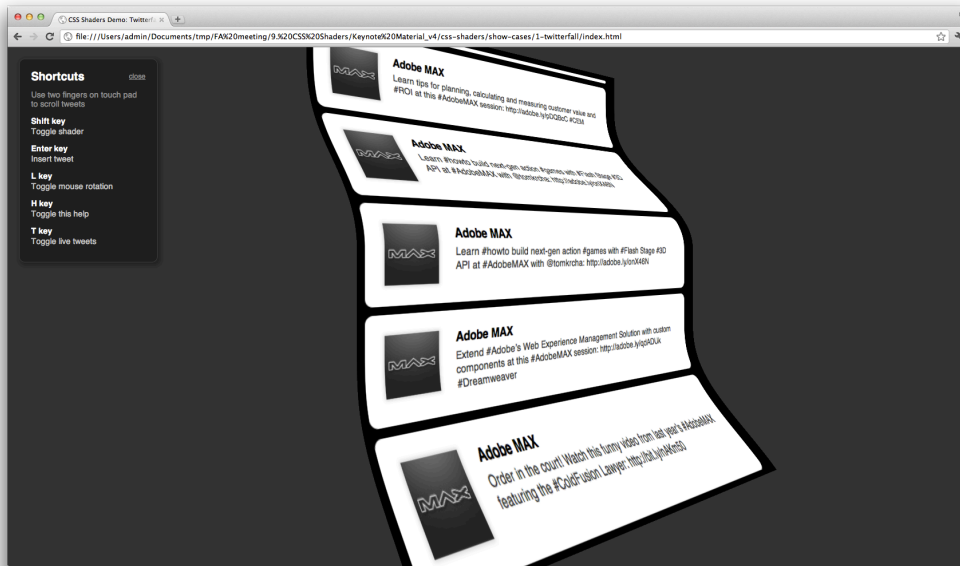

Adobe Edge

- Adobe Edge is a new web motion and interaction design tool that allows designers to bring animated content to websites, using web standards like HTML5, JavaScript, and CSS3.

Webkit Contributions – CSS Shaders

- The Adobe CSS shaders proposal has been brought to the W3C FX task force. CSS shaders define a filter effects extensibility mechanism and provide rich, easily animated visual effects to all HTML5 content. They work particularly well with CSS animations and CSS transitions.
